

I was recently notified by the Indiana Attorney General's office that the Consumer Banking Association is planning to challenge Indiana's Telephone Privacy Law in an FCC hearing. I strongly support the law as it stands, as it has done a great deal to protect my family's privacy and eliminate the large number of unwanted telemarketing calls we used to receive. I urge you to protect the interests of the citizens of Indiana by ruling in favor of the existing law.

John A. Kurdalak
